

Dear friends,

The Netherlands has used the past weeks and months to push ahead with their internal plans to host the EMC show in Vlodrop despite the corona pandemic.

Unfortunately, however, they have to realize that the corona crisis presents them with tasks that they cannot master from a health, economic and human point of view. With a heavy heart they have decided to cancel the EMC show in Vlodrop. They certainly didn't make this decision easy, but they couldn't come to any other decision. Organizing a show with participants from 17 different countries is no easy task in these times!

What's next with the EMC?

- Where will we organize our EMC show in 2021?
- What about our magazine „Mövchenpost“?
- What about the membership fee?

We have to discuss this with the board and the representatives of the connected countries over the next few weeks.

We ask you all to understand this decision and hope to see you all well again.

With friendly greetings

Luc Kerkhofs

President EMC
